

## CAVES CAPTURED BY REVOLUTIONIST

CIVIL WAR CLOSING RINGS OVER HAYTT—GOVERNMENT OFFICIALS ANTICIPATE TROUBLE

Port, Aug. 28.—(Special Cable.)—It is reported that Cayes, Press, Simon, have fallen into the hands of the revolutionists. It is true that there is a severe blow to administration. Considerable activity was noticeable among the soldiers in the Palace grounds. It is believed to have some bearing on events likely to transpire within the next few days.

Advices from Port-de-Paix, on the Northern coast, indicate messengers at that point and the American cruiser Chester has come there from Cape Hait. A crisis in the government appears to be gradually approaching.

## GERMAN RESERVES HAVE PASS-PORTS

ENTITLED TO FREE TRANSPORTATION TO FATHERLAND IN THE EVENT OF WAR

Many German housewives in different parts of the Edmonton district have in their possession passports from the German government which entitles them to a free pass back to the Fatherland in case of an outbreak of hostilities with their own power, according to Otto Zwarg, a Dominion government land agent who came to Western Canada from Germany. To the capital this morning he told something of the methods by which the reserves of the German army are trained and kept within the call of the home government even though they go to foreign lands to live. At the age of 20 years every male adult man in Germany is forced to countenance either a three year or a five year military training. The course of training for the infantry extends over three years while for the cavalry it is five years. When a man completes the course he is placed on the reserve list and is kept as a member of the reserve for a period of years. If he decides to leave the country before the term expires he is obliged to secure a passport from his own government. This is issued to him for a year and he must get it renewed annually. The renewal of these passports to Germans in Western Canada is looked after by the German consul at Winnipeg. This official has the address of every man who holds them and if war breaks out at home and the men are notified they are expected to report to the consul. At Winnipeg within six days after the notice is received. To those who return to the service all the expenses of their trip back to Germany are paid. Mr. Zwarg has been in Canada for about ten years and is a naturalized British subject.

## SPECIAL MEETING OF CITY COUNCIL

WILL BE HELD TOMORROW EVENING WHEN DATE OF BYE-ELECTION WILL BE SET

Tomorrow evening the delayed special meeting of the city council is to be held when a bye election will be ordered and the municipal corporation will set the Dominion government for a grant in respect to the low level bridge across the Saskatchewan which is the city to build. The bridge will enhance the value of the city and the city and thereby be of benefit to the Dominion. Hence the prayer for the grant. Other matters of business will be transacted at the special session because of the lack of a regular meeting the early part of the week.

The provisions that will be made for a bye election will lie in the power of the council board, caused by the resignation of J. H. McKinley, is a matter of greatest present interest. The time to be set for the election will be on Friday, the same day upon which the public is to be asked to vote on the gas franchise proposed to be given Cyrus S. Eaton, representing the International Heating and Lighting Company of Cleveland, Ohio.

## BOOTLEGGER ON TRIAL

Edson Restaurant Raided by Mounted Police, and 300 Bottles of Liquor Seized

Charged with selling contraband liquor, John Edson, the alleged bootlegger of Edson, upon a preliminary hearing, was seized some 300 bottles of high class stuff as the preliminary trial of his case for the violation of a recent law, upon the plea of the R. N. W. M. P. yesterday.

The trial was adjourned until Friday, when the accused was to appear before Inspector Worsley at the mounted police barracks in the city. The case was the keeper of the Palace restaurant, Edson.

## GENERAL ELECTION IN QUEBEC SOON

Possible That Federal and Provincial Elections Will Be Held Same Day. Constitutional Questions.

Montreal, Que., July 28.—There is now an impression in well formed political circles that Sir Louis Gouin will appeal to the country at an early date and that the provincial elections will be over before the Federal poll or it may be, some say, that the appeal to the local and Federal electorate will take place on the same day.

When the Premier of Quebec left for Europe he declared that there would be another session before a dissolution, but yesterday an influential Liberal, ex-member of Parliament gave the reason for and explained an early appeal. Sir Louis Gouin and those from whom he takes his ideas of constitutional law, have made themselves believe that there are valid constitutional reasons why an election should be held within the next few weeks. It will be remembered that according to the provisions of the Washington Pact the Province of Ontario and Quebec, which adopted hostile legislation re the exportation of pulp wood, are given an opportunity to revoke such legislation and allow the American's a free hand in the depletion of the Canada forests. Now the story is that Sir Louis Gouin has decided to throw down the gauntlet and let the Province of Quebec, Sir Wilfrid Laurier and everyone else, that while he is Premier, Quebec, stand by her guns and that the legislation he has adopted at Quebec will not be repealed, the Washington authorities to the contrary notwithstanding. Apart from possible errors in his estimate of constitutional law, the move which Sir Louis Gouin is about to make on the political chessboard is admittedly a strong one.

## Nova Scotia Agricultural Department's Crop Bulletin

SUMMER CROP BULLETIN SHOWS THAT HAY WILL BE LIGHT—OATS AND OTHER GRAINS WILL BE AVERAGE—DRY WEATHER AFFECTS FRUIT.

Halifax, July 28.—The provincial department of agriculture has issued a summer crop report. Hay will be light compared with last year because of dry weather. The oat crop will be about equal to that of last year but only equal to 94 per cent of an average. Turnips and other roots will be 80 per cent of last year's crops. Oats and other grains are estimated at 94 per cent of last year's crops but are distinctly above the average.

Recovering fruit, the secretary of agriculture says:—"Nothing but continued dry weather will prevent Nova Scotia orchards from giving the best year for the province since 1907. Fruit growers' report unusual freedom from black spots and are looking to the best quality of apples they have ever produced."

The most serious pest is the Aphid, which it is estimated by some will reduce the crop ten per cent. There has been an increase of three per cent in large numbers of the apple tree and the stationary and swine have decreased four per cent.

## Many Applications for Naturalization Papers

RUMORS OF FEDERAL ELECTION THIS FALL THE CAUSE—FORTY-EIGHT NAMES POSTED IN SUPREME COURT THIS MORNING.

Now that a federal election early in the fall in which the subject of reciprocity will be practically the sole issue, has become a more certainty, the number of the naturalization papers have been posted in the Supreme Court. These papers are not British born, are taking out naturalization papers at the rate of ten or more a day. The past week has shown a very large increase in the number of applications for naturalization papers. In the past week 48 were posted in the Supreme Court. These must remain posted for sixty days, and after that time the applicants become British subjects in fact, and should the general elections take place before September 27, none of the recent applicants will be eligible to vote.

Since the beginning of June 294 applications of the naturalization have been made out and in almost every instance the applicants are farmers of the districts. The large numbers of the applicants comprise a large proportion of the total, but German and Austrian settlers in large numbers, are taking out papers of allegiance. Exactly 100 papers have been taken out this month.

## ALBERTA STOCK SHOW IMPROVEMENT

FARMERS ARE SELECTING BETTER BREEDS OF CATTLE AND HORSES—INTEREST IN DAIRYING

"Cattle and stock of all kinds have been in better shape than they were this year," said Livestock Commissioner W. S. Stevens, in conversation with the Capital this morning. "The season has been an ideal one for the stock raiser, and the farmers of the country east of the city, in the districts surrounding Vegreville, Lloydminster and Kildonan, and all the towns of the C.N.W. line, are enjoying a better season than they have ever known before."

A very marked improvement in the quality of all classes of stock was noted by the commissioner during the opening of the recent livestock show. The farmers are giving attention to the selection of better breeds. The class of horses is being improved by the introduction of Clydesdales, and Percherons, the favorite draft horse of the farmer from the United States. The Suffolk Punch is also being introduced, and is proving one of the best draft animals in the country.

Barbours is a matter of interest to the farmers of Northern Alberta, have given greater attention this year than ever before to the raising of the pure bred Angus, the rule, and in consequence the very best type of farmer-stocker is being raised.

For the benefit of moving picture artists who will be present from the Orpheum theatre a real bucking contest will be held at Smith's auction yards this afternoon.

## INSTITUTE OPENED

Paris, July 28.—The aerotechnic institute, established with thanks to the generosity of M. Deutsch de la Meurthe, the well-known aviator, has been officially opened by the Minister of Public Instruction. Mr. Deutsch announced that in five years ago his intention to give to the University of Paris a sum of \$1,000,000 and an endowment of \$200,000 for the installation of an aerotechnic institute. This has now been established at St. Cyr, near Paris, a busy centre of aviation.

## BALLOONIST LIVES LIFE IN WINDS

FALLS 1000 FEET AND EVERY BONE IN BODY IS BROKEN—5000 SEE TRAGEDY

Chateau, Ill., July 28.—A man, a thousand feet above the ground, suddenly dropped from his dizzy point in the sky yesterday and landed, a veteran balloonist was dashed to death by the presence of 5,000 people. The tragic death of the aeronaut brought the holiday festivities at a sudden close. The crowd that had gathered for the day had been cheering the daring explorer of the clouds stood still, and then the man, who had been in the air for a long time, fell to the earth and was the last of the soft bed of the river.

Darnell promised to turn a double flip in the air and the man, who was in the air for a long time, fell to the earth and was the last of the soft bed of the river.

## STRUGGLE OVER RECIPROCAL HAS ONLY COMMENCED

Attempt Will Be Made to Bring the Issue Before Republican National Convention Next Summer

Washington, July 28.—The struggle over the Canadian reciprocity bill in the United States did not end with the President's signature. Indeed it looks as if the war were only begun. It was learned that the controversy is going to be carried into Republican politics in many states. It is likely to be carried into the Republican National convention next summer. Plans are made to conduct a sort of referendum on reciprocity; that is the issue will be received in a number of conventions which will be held next spring, prior to the Republican National convention next summer.

It is expected that a number of the states along with the attempts made to adopt platforms against reciprocity there will be attempts to get anti-Reciprocity bills introduced in the Congress. If any such move is made in different states which they hope to do, they will do their utmost to get the next national convention to take a stand opposed to reciprocity.

## Representative of Calgary Department Store Fails To Take Out a License

SECRETARY OF LOCAL MERCHANTS' PROTECTIVE ASSOCIATION SECURES EVIDENCE AGENT IS SELLING GOODS—LICENSE INSPECTOR ISSUES SUMMONS.

Energetic steps are being taken by the retail merchants association of this city to protect the merchants of Calgary. The secretary of the association, who is also a member of the local board of trade, has been in the city for the purpose of taking evidence against a certain department store which is selling goods in ways and manners that are not considered legitimate business. The secretary of the association has been in the city for the purpose of taking evidence against a certain department store which is selling goods in ways and manners that are not considered legitimate business.

Through some advertising accepted by some of the press of Edmonton, and other means of advising the public the travelling salesman secured some business in the city and the municipality is out the \$25 which should have been taken into the coffers as a license fee. The summons cited the defendant to appear in court tomorrow morning but the court granted a continuance of the case for one week upon the application of the defendant this morning. Mr. Howes claims to have not been informed with regard to the license but the license inspector has been in the city and every day in which conversation the requirements of the license were made known. Mr. Howes says that it was not for him when the inspector had.

## COMMENCE CUTTING THREE ARRESTS IN FALL WHEAT SOON UNIVERSITY CITY

FIELDS WILL BE READY FOR THE BINDER WITHIN NEXT TWO WEEKS

Along the line of the Canadian Northern, east of the city to the boundary, cutting of fall wheat will commence in a week's time. The weather conditions are favorable, and the wheat is in good shape. The cutting of fall wheat will commence in a week's time. The weather conditions are favorable, and the wheat is in good shape.

Those rounded up believed to be members of confidence gang

Taken from the C.P.R. station in Strathcona under an escort with drawn revolvers three men who are believed to be members of one of the largest gangs of confidence men and crooks that have ever operated in Western Canada were taken to the police station in the university city and placed under arrest. Later in the morning charges were laid against them and they came before a magistrate for arraignment. Kennedy, said to be the leader of the bunch, is remanded until tomorrow morning for trial on a charge of carrying concealed weapons. Gill has been sent up for trial and the third man, who is a member of the confidence gang, against him being only that of stealing a car.

As they lay down the line they attacked a section car and endeavored to seize a hand car but were repulsed after a desperate fight. The result was that the three men were taken to the police station and placed under arrest. Kennedy, said to be the leader of the bunch, is remanded until tomorrow morning for trial on a charge of carrying concealed weapons. Gill has been sent up for trial and the third man, who is a member of the confidence gang, against him being only that of stealing a car.

## ISSUE WARRANT FOR CALGARY MAN

C. P. R. EMPLOYEES CHARGED WITH DESERTING POSTS AND BEING RESPONSIBLE FOR WRECK

Calgary, July 28.—(Special Cable.)—Warrants with manslaughter warrants have been issued for the arrest of George Batten, yard foreman and G. W. Potter, foreman, for the C.P.R., who, by deserting their posts are alleged to be directly responsible for the death of Leonard Harvey who lost his life in this city several days ago when the transcontinental plunged through an open switch.

Neither of the wanted men were at their posts of duty and neither have been seen since the fatal wreck. The warrants were issued yesterday and the mounted police are sending detectives to all the cities in the United States and Canada. It is thought possible that they have both crossed the line.

## DISCUSS RAILWAY TO PEACE RIVER

COAST CITIZENS ARE AFRAID THAT EDMONTON WILL SECURE TRADE OF NORTH COUNTRY

New Westminster, July 28.—Thursday evening a meeting of the Peace River Citizens Association was held at which several prominent business men from Vancouver were present and addressed the meeting. The speakers were Hon. P. Carter-Gordon, M.P.P.; A. G. McManis, president of the Vancouver Chamber of Commerce; and S. H. Howes, secretary of the Tourist association; Robert Kelly and W. H. Malkin.

The speaker under whose auspices the meeting is to be held was formed in Vancouver on July 10, with C. H. McManis as president. This is an organization formed to impress on the government and investors the necessity of a railroad from this district in a northwesterly direction to the Peace River country.

It was pointed out that if a line is not built from this section there is danger of Edmonton taking all the trade of the north country.

## G.T.P. ENGINEER IS SLIGHTLY INJURED

TEAM DRIVEN BY B. B. KELLNER RUNS AWAY THROWING OUT OCCUPANTS OF RIG

Suffering from injuries sustained when his team ran away from a rig in which he was driving over the G.T.P. right of way at the summit, 129 miles from Vancouver, B. B. Kellner, chief engineer of the Grand Trunk Pacific, left Edmonton on the regular train with his wife and two children. Kellner came to the city from the head of steel last night in a special car attached to the regular passenger train from the west.

The accident occurred on Wednesday last when Kellner was driving over the right of way with Mr. Fetter, superintendent for Foley Welsh and Stewart, on their contract to take the rig to the city. When they were travelling over a most difficult section of the newly constructed wagon road over the summit of the pass, the team took fright and became unmanageable during the descent of the hill. Kellner, who was driving the rig, was thrown from the rig. Mr. Fetter escaped injury but Kellner was badly bruised and sustained a slight fracture of the head of steel and brought to Edmonton in a special car. His injuries are not serious.

## PORT ARTHUR MAN BUYS AN AIRSHIP

PAINTER FALLS IN ROLE OF REAL INVESTOR AND BUYS A REAL MACHINE

Port Arthur, Ont., July 28.—A flying machine consigned to E. Peterson has arrived in Port Arthur from New York but will be kept in the custody of the Dominion Express Co. until the return of the owner from the east.

The machine is an aeroplane and came

## BANDITS RIFLE ROYAL MAIL CAR

**MASKED ROBBERS STOP STAGE AND  
GO THROUGH MAIL BAGS**

—LOSS TRIFLING  
(International News Service)  
Belfast, July 25.—An extraordinary  
affair, with a strong suggestion of the  
American "Pie West," is reported from  
the west of Ireland.

The royal mail car from Killebegh  
County Galway, to Ballyvaughan, was  
held up by a party of masked men,  
and when it was afterwards dis-  
covered by the roadside it was found  
that several mail-bags had been torn  
open and letters were strewn about  
the roadway.

The police are scouring the country,  
but up to the present time they have  
obtained no clue as to the authors of  
the outrage.

## HAMMERSTEIN ON PATH TO SUCCESS

**FAMOUS NEW YORK OPERA MAN-  
AGER TELLS HOW HE CAME  
TO MAKE GOOD**

(International News Service)  
Paris, July 25.—Mr. Oscar Hammer-  
stein, the American opera manager,  
who is confident that he will be able  
to open his London house as  
promptly on time as he did in the  
case of Manhattan Opera in New York,  
told me the other day what was his  
policy of management will be in Lon-  
don.

"To be successful," he said, "I must  
not teach, I must instruct. The opera  
will be sung in French and Italian; in  
regard to French my efforts are de-  
pendent on the results of my first sea-  
son. My orchestra will number over  
100, directed by men of the greatest  
musical distinction; the chorus will  
number 125 and the ballet 60. In the  
chorus English voices will be pre-  
dominant for I am establishing a school  
with competent teachers for the pur-  
pose, with teaching provided free of  
charge.

"Seats will range in price from one  
guinea to two shillings, and in the  
region of this opera house, untried  
by anybody, financially or otherwise,  
I am paying the highest possible tri-  
bute to musical London, in whose  
musical taste and culture my confi-  
dence is unshaken."

## TIPPING EVIL IS VERY COMMON

**EVEN STREET CAR CONDUCTORS  
GET CONSIDERABLE MONEY  
ON THE SIDE**

(International News Service)  
Berlin, July 25.—A feature that  
struck most distinguished street car  
conductors of Germany from that of any  
other country is the practice on the  
part of a large percentage of pas-  
sengers of giving the conductor a "tip."  
The average fare on German street  
cars, including those of the capital, is  
ten pfennings, or two cents, but at a  
moderate estimate, fully one-third of  
the passengers hand the conductor an-  
other five pfennings, the equivalent of  
a cent. This is usually done by ladies,  
though it is common enough with the  
men, the idea probably being that of  
securing the support of the conductor  
in case of trouble. That the grati-  
ties amount to a considerable sum in  
the course of a year is shown by a trial  
in Hamburg, arising out of a dispute  
between the company and one of its  
conductors, in which the court as-  
sumed the gratuities to amount to  
nearly \$100 each year.

The court wisely declined that the  
income from tips must be considerable  
from the fact that very few wages  
were paid to the conductors in com-  
parison with the motormen.

## FRENCH CEMETERY SCENE OF TRAGEDY

(Globe Cable Service)

Paris, July 25.—The Mont Parasse  
Cemetery was the scene of a sad tra-  
gedy the other morning. About 2 o'-  
clock some workmen heard shots, and  
found two people lying on the ground.  
One was a young girl, and the other  
was a man of about 22, who was still  
holding a revolver in his hand. The  
man, whose name was Fernand Rou-  
seau, had shot the girl and then turned  
the weapon on himself. In his pockets  
were found letters which stated he  
had lost a fortune in a disastrous  
speculation, that he had been deserted  
by his wife, and that, having fallen in  
love with the girl, aged 21, he  
resolved to marry her and start a  
new life. Hearing, however, that she  
was about to forsake him, he deter-  
mined to shoot her and himself.

## Saturday - SALE -

## "I never saw so many really nice things before!"

No wonder the woman was so enthusiastic about what she saw in our  
last Saturday sale.

It is an economy event without precedent in Edmonton. Everything is  
so fine and fresh and nice, because there aren't any old goods in this store, and  
we are determined "to keep the store new." That is why so many delightfully  
fresh and desirable things are being sold without reserve each Saturday at the  
lowest prices shrewd shoppers ever experienced.

Now is the time to buy for today's needs. Each department contributes  
desirable articles at quite insignificant cost.

## Dress Goods Bargains

The new Dress Goods are now arriving daily, but before entering the department a final  
clearance must be made. To specially effect this a heavy reduction price across the  
shortest way.

Gorman, Clancy & Grindley, Ltd.

Scranton, Pa., July 28.—Preparations are about completed for the entertainment of the thousands of delegates and visitors who are to convene at Scranton at the end of next week

to attend the annual convention of the Catholic Total Abstinence Union of America. Nearly all parts of the United States and Canada will be represented at the gathering.

## PENSION LAW AFFECTS OVER 50,000 PERSONS

MANY EMPLOYEES REFUSE TO ALLOW SUMS TO BE TAKEN FROM THEIR SALARIES AND ADDED TO FUND—AUTHORITIES ARE ENERGETIC.

(Globe Cable Service)  
Paris, July 28.—Saturday was the first day since the old age pension law came into force. The employers, as a rule, had decided to deduct the obligatory contribution of their workmen (36 centimes for a man, 24 centimes for a woman, and 18 centimes for a boy weekly) from the wages of those who were unprovided with the official cards on which the pension stamps are to be affixed, and there was no reason for any manifestation of that hostility to the new law which is being encouraged by all the labor organizations.

It was fortunate that the majority of workmen were unprovided with cards, as otherwise there would inevitably have been a great shortage of the cards and two-centime pieces required to pay the men their wages with the deduction of their contributions. The demand was so great for this small money that the treasury refused to give more than five francs' worth of centimes at a time and there will be necessary to mint a large number of these pieces in order to facilitate the application of the law.

An official note announces, in optimistic terms, that the names of nearly five or six half million persons have been registered as coming within the obligatory pension systems, just over a million and a half living in their homes of their own free will. According to the original official estimate the number of persons to benefit by the obligatory and also the optional pension system should amount to twelve millions for the first application of the law, rising gradually to seventeen millions.

**Dockers Refuse to Contribute.**  
A telegram from Dunkirk states that the dockers and various other employees of that town refused to allow their contribution to the pension fund.

## GIVE YOUR EYES A DAYS HOLIDAY

READING CAUSES INTENSE HEAD-ACHES AND OFTIMES TOTAL BLINDNESS, SAYS SURGEON

(International News Service)  
London, July 28.—Everybody should give his eyes a day's holiday at least once a month.  
An experienced house-surgeon of a well-known London eye-hospital gave this advice in a lecture today.  
"In the present age," he said, "we experience far more eye-strain, owing to increased reading habits and multitudes of glaring lights, than our forefathers did, and we suffer more from headaches."  
"Therefore, give your eyes a holiday as frequently as possible. Give them a day's absolute rest and the relief the next day will be most refreshing."  
"When taking an eye-holiday a room with green wall-paper is a good place to rest in if one cannot get to the country amid Nature's green fields and trees. Green rests the eyes more than any other color."

## REGULAR MEETING BOARD OF HEALTH

NEW REGULATIONS, PASSED BY "PROVINCIAL GOVERNMENT," WILL BE CONSIDERED WEDNESDAY

Wednesday evening at 8 o'clock, August 2nd, the board of health of this city is to meet in regular session. From now on the health board will hold regular monthly meetings to consider matters of civic health and improvement. With the receipt of the new regulations of the health act passed by the last meeting of the legislature the health board is informed as to its powers and duties. The new regulations will be a matter of discussion at the meeting of the board. Steps will likewise be taken, it is expected for the recommendation of some health bylaws in conformity with the regulations.  
Health Officer Dr. T. H. Whitehead, M.D., yesterday sent out the notices of the meeting to the members of the board.

## MAKE THIS TEST

How to Tell If Your Hair Is Diseased

Even if you have a luxuriant head of hair, you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic.

Pull a hair out of your head, if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want everyone whose hair requires treatment to try Rexall "93" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, loosen the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "93" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and \$1.00. Sold only at our store, The Rexall Store, A. Archibald.

to be deducted from their salaries. The union officials of the same body decided that the pension cards of their adherents shall be burned.

It is not only in the matter of old age pensions that the labor organizations controlled by the socialist confederation are showing their hostility to the government. There are signs that France is once again about to enter on a period of general labor unrest.

**M. Caillaux Conciliatory.**  
It is clear that M. Caillaux intends to be less conciliatory than M. Monis to the advocates of the dismissed railwaymen, and in this attitude he will be supported by public opinion, which is loudly weary of the daily acts of "sabotage" on the railways which are approved by the syndicates in their support. The United Socialists on the other hand following as they are compelled to do in the wake of the general confederation of labor, announce a policy of obstruction and threaten that they will each day move a resolute denunciation of the reinstatement of the railwaymen.

**Authorities Energetic.**  
The authorities are showing a disposition to act energetically, and the prefect of police raided a few days ago the labor exchange, the headquarters of the general confederation, in search of documents connected with an institution known as "Le Son du Soldat," by which small sums are sent to conscripts as soon as they join the colors, accompanied by a suggestion that they should encourage their friends to disobey orders in case they are called out for strike duty. As a result of this raid three officials of the "Masons' Trade Union were arrested and the "Vitalite Syndicale" publishes a manifesto signed by the secretaries of 35 more trade unions who claim that they also are equally liable to prosecution.

## PARTIES COLLIDE IN A CEMETERY

(International News Service)  
Brussels, July 29.—A singular fight between Slovaks and Romanians occurred in the cemetery at Maxahia, Hungary, the other day, on the occasion of the consecration of the crucifixes there. The cause of this extraordinary collision is thus stated: Both the Slovak and Romanian inhabitants of the village, in erecting a crucifix in the cemetery, but as they could not agree regarding some trifling details, the parties resolved to raise two crucifixes, which were consecrated simultaneously.

The Slovaks hooked at the cross of the Romanians and vice versa, and after the sermon of the Romanian Pope, a free fight occurred, knives and, later, bayonets being freely used. When the crucifixes succeeded in separating the hostile parties and restoring order 13 persons were lying in the cemetery seriously wounded. One of the injured died before he could be removed to a hospital.

Blind Man's Buff  
With the Motorman

Just a suggestion to the street railway department, which may not be worth much but has the recommendation that it does not cost anything.

The department has on order a whole series of fancy signs which will designate the destination and route of every car on the system. But these signs, although they are undoubtedly going to be very nice, are not going to do their designing to any great extent until they arrive in town. In the meantime, patrons of the street railway who want to take a car after dark have to stand on a corner and walk to the middle of the street to see the signboard on every car that approaches until the particular car arrives, a process which is not conducive to the comfort or convenience of the patrons to say nothing of the wear and tear on the nerves of the motorman, who is stopped on a false alarm about every other block.

A colored bulb for each car following the general route-color scheme to be adopted when the signs finally arrive, and about four feet of insulated wire for each car, would be about all the material required to install a designation light in the front end of every car on the system.

The signs, when they arrive, will undoubtedly be a decided improvement, but in the meantime it should not be necessary to compel the patrons of the system to spend the gloaming in a game of blind man's bluff.

Embargo Versus  
The Prohibitory Head Tax

While the investigation into the Chinese frauds on the Coast leaves some doubt as to who was responsible for the open door and who profited thereby, it leaves no doubt that it has been easier for a pig-tailed Oriental to get in by the Sunset Doorway than for a civilized white man to cross the 49th at North Portal or Emerson.

The Spoo head tax, intended to keep the Chinese out, has had the effect of letting them in in greater numbers than when the head tax was lower and the incentive to organized and systematic fraud not nearly so great.

What the Coast asked on the Oriental question was an absolute embargo. They got instead a head tax which was alleged to be prohibitory. Experience having shown that the head tax is far from prohibitory, a trial of the embargo, with a penitentiary term for the officers who identified themselves with the underground railway, would be a fulfillment of the British Columbia's original demand and could not work out to any greater injury for the Coast than the present arrangement.

France and Germany  
Learn What They Wanted to Know

At this distance the fuss in Morocco is not at all easy to understand, especially in view of the fact that Morocco is always represented as a waste of sand and desert, inhabited by an uncivilized and thoroughly useless people, making possession of their whole country not worth the price in human life and dollars of one good battle.

Nevertheless, this dark northwest corner of the Dark Continent furnishes the stage setting for the development of the most gigantic tragedy of war in history and with the actors all on the scene and the wires vibrating with Liza-crossing-the-ice music it requires only the prompter's word to ring up the curtain and start the show.

However, a fortunate set of circumstances has placed in control of the situation a government in Britain which seeks no war and which practically has it in hand to prevent the development of hostilities.

Roughly, the situation is like this. Germany has for generations sought as an outlet some territory into which she could pull her surplus population and do a little empire-building on her own account. France, Great Britain and Italy have entered a three-sided agreement, the purpose of which is to isolate Germany in European affairs and thwart her in her schemes of expansion. As a part of this propaganda there developed in Morocco at the time of the previous trouble a situation out of which came the treaty of Algiers, the essence of which was that none of the powers should attempt to acquire further possession of territory in that corner of the map. France, under this treaty, was confined to the eastern frontier of Morocco and the integrity of the alleged empire was guaranteed. But France, depending no doubt on British support in case a clash came, proceeded brazenly to violate that treaty by making a spectacular march to Fez, the capital, accounts of which exploit furnished the principal cable news of only a few months ago. Germany, seeing the treaty violated, egged Spain on and the Castilians landed troops at Larache, on the northwest corner of the continent, just across the way from the southern end of Spain. France, notwithstanding that she had violated the treaty herself, sent an expedition to Larache and arrested the Spanish ambassador. Germany took a hand by landing troops at Agadir, admittedly the best harbor on the Atlantic coast of Morocco and a point which Germany covets with an especial covetousness owing to its possibilities of usefulness to her as a coaling station on the route to South America, where Germany has an enormous and phenomenally growing trade. France then called upon England, sub rosa, of course, and the reply of Lloyd George and Premier Asquith is the answer for which Europe has been waiting.

Lloyd George, in his statement to the London bankers, says, in language as plain as his position as chancellor of the exchequer will permit, that Great Britain is not going out looking for any fights, but that she will not allow Germany or any other nation to put anything over on her.

Asquith says, in effect, that Great Britain stands by the treaty of Algiers as originally adopted, but that she will not be a party to any schemes of France to grab territory in violation of the agreement, while at the same time she will not allow Spain, as proxy for Germany, or Germany for herself, to take advantage of the situation into which France has projected the powers, and to grab territory for Germany in Morocco.

This puts the next move up to Germany. Let Germany commence to shoot and the war is on. But it Germany and France arrive at an arrangement by which they will both get back to the principles of the original treaty there will be no war and the occasion for a war will have been removed.

With France and Great Britain ready to commence hurling bombs into Germany, the Germans are not likely to provoke hostilities while there is a chance of peace; and with France plainly told

that her double-shuffling march to Fez finds no approbation with the British government, it is not likely that France will place herself in the awkward position of provoking hostilities under circumstances which do not guarantee her British support.

Taken all in all, it looks like a gigantic piece of stage play in which both France and Germany were anxious to try Great Britain out under the new administration and find out whether John Bull was in training for a scrap.

They both know now, and they have the information on the authority of Lloyd George and Asquith themselves, that Great Britain is in the position of the Irishman who said that he was for peace and quietness and he intended to have it if he had to send every man home on a shutter.

Undoubtedly this is what France and Germany wanted to know: and having been assured in no uncertain terms, there will be no war.

## "THIS DATE IN HISTORY"

July 28  
1750—Johann Sebastian Bach, famous composer, died. Born March 21, 1685.  
1791—Robespierre and 71 other leaders of the French Revolution died on the guillotine.  
1821—San Martin proclaimed the independence of Peru.  
1823—Gonzalez William Bainbridge who commanded the "Constitution" died in Philadelphia, Penn., in Princeton, N.J., May 7, 1771.  
1811—Joseph Bonaparte, who had been king of the Two Sicilies, Naples and of Spain, died in Florence, Italy, from January 7, 1768.  
1861—John A. Johnson, governor of Minnesota, born in St. Peter, Minn. Died in Rochester, Minn., September 24, 1909.  
1901—General Hood attacked General Howard in his new position to the northwest of Atlanta, and was repulsed.  
1881—Henry M. Stanley returned to England from his expedition to Africa.  
1852—Sir Moses Montefiore, famous philanthropist, died in England, from July, October 14, 1781.  
1901—The Russian minister in the Interior, M. Plehve, assassinated in St. Petersburg.

## "THIS IS MY BIRTHDAY"

Earl of Crawford  
The Earl of Crawford, the premier Earl of Scotland, and one of the most interesting members of the British peerage, was born at St. Germain-on-Laye, France, July 28, 1817, and succeeded to the title upon the death of his father in 1880. He is a keen sportsman and a big game hunter, an experienced traveler, and an enthusiastic yachtsman, and he is the possessor of one of the finest stamp collections in the world. He is also a great authority on astronomy. He was once an active president of the Royal Astronomical Society, and also founded and equipped the Dumfriesshire Observatory, which he afterwards presented to the British nation. Some years ago he made a yachting cruise to South Africa and the Islands of the Mozambique Channel, where he secured a large collection of rare birds which he presented to the British Museum. The Earl is extremely rich, but owes his wealth to minerals in Lancashire rather than to his large estates in Scotland.

## REPRESENTATIVE OF CALGARY

DEPARTMENT STORE FAULTS

(Continued from Page One)

the conversation and suggested that it might have been a Mr. Hughes, who was with him, but handling separate lines of goods.

It appears that the gentleman on the other end of the telephone assured the business inspector that they were selling demonstrators, and were not selling souls.

The secretary of the retail merchants association was dubious about the truth of this representation and a little investigation disclosed what appears to be much to the contrary. Evidence of a receipt for goods bought by a lady resident in this city. The secretary of the merchants association took this receipt to the license inspector and demanded that a summons be issued accordingly. This summons was served last evening at 6 o'clock. The agent took the afternoon train for Calgary after having the case postponed for one week giving him an opportunity to report to his home.

This case is of particular interest at this time due to the fact that the retail merchants association have requested for a revision of the by-law governing travelling salesmen. Such agents come to the city twice a year open up a showroom with samples, take orders for goods, and the moment the season begins to wane, they move on to their respective homes. To protect the city merchants a license of \$200 a year is charged such agents, or \$225 if they apply for license after the first of May and prior to August 1st. After August 1st and prior to November 1st for \$250, and after November 1st for \$275.

## Real Estate BULLETIN

The half holiday somewhat disturbed business, but there is practically no change to note, excepting the strengthening of the usual demand for Jasper avenue and trackage properties in which several deals are pending.

Some movement is taking place in Inglewood and other West End subdivisions; also in Norwood in the East End.

Houses are wanted in the West End, but terms are generally desired to be easy, as newcomers do not anticipate having to purchase, hence have come unprepared to put up large sums as initial payments.

Subdivision lands are still in good demand.

## Alberta Park

### NEWS OF THE CITY

Miss Martin, graduate nurse, has returned, after a holiday at Banff. Because Mayor Davies of Strathcona was ill and unable to be present the meeting of the amalgamation committee of the town cities was called off late yesterday afternoon.

Street car traffic during the present month is to exceed the traffic during the month of June. The June revenue from the railway department was \$18,236.45 up until the 25th of the month while the same date this month the receipts have been \$18,010.62.

On Monday morning at 10:30 o'clock the city commissioners will sit as a court of revision for the purpose of hearing and adjusting any complaints alleging too high assessments. Eight houses appeals have been made praying for reduction.

James Norton, of the Vancouver News-Advertiser, is spending a few days in the city on his way to the Peace river country, which he is visiting in behalf of his paper.

Enquiries are being made as to the whereabouts of Nelson Abbott, who was employed in a C. N. R. construction camp near Vegreville last year, and is supposed to have subsequently left for Winnipeg. His mother, Mrs. Grace Abbott of Golden, B.C., is seeking information as to the whereabouts of her son.

A meeting of the Hymans society, sponsored yesterday afternoon, will be held at 3 o'clock this afternoon in All Saints' schoolroom.

A shakedown clock watch was presented to W. Gollyer, for several years secretary and treasurer of the bricklayers and masons' union, on his retirement from office last evening. The presentation took place at a special meeting of the union. Mr. and Mrs. Gollyer have since left the city for Vancouver.

This afternoon a meeting of the Mission Band of Methodist church will be held at the home of Mrs. E. N. Butek, corner of Twelfth and Victoria avenue. Master Elwood will describe his trip to Sicland as one of the four local boy scouts.

In connection with the Hudson's Hope and Vernalton Transportation Co. a new concern which has been organized for the purpose of developing the transportation facilities of the Northern waterways, landlocked Lynn, C. E. of Peace river crossing came into the city yesterday.

The civic employees are planning a river trip in "The City of Edmonton." The river steamer will probably be chartered for the event in about a couple of weeks' time.

Mr. and Mrs. Joseph Breckell have returned to the city after spending a holiday in the mountains at Banff and Laggan.

George Harcourt, deputy minister of agriculture, is on a tour of the province in connection with Insulate work. He will return to the city on Saturday and leave again early next week for the Dominion fair at Regina.

No appointments have yet been made to the positions on the staff of the Normal school, Calgary, made vacant by recent resignations. Hon. C. H. Mitchell, minister of education, stated this morning that the appointments would not be made for some days to come.

A delegation of physicians will appear before the city council this evening asking for a contribution to the fund for entertainment of the Alberta Medical association meeting here August 11-17.

## HUNDREDS SETTLE PEACINE PRAIRIE

### POPULATION OF FERTILE AGRICULTURAL DISTRICT NOW OVER ONE THOUSAND

"Fully four hundred people, the majority of whom are settlers from the United States, have located in the Peacine Prairie country since the opening of spring," declared Landeide A. Kerr, to a Capital reporter this morning. Mr. Kerr has recently returned from a lecture trip to the north west, and will start out tomorrow with another party of six Americans from a many states of the union, who are to locate on Peacine Prairie lands.

The total population of that district is now considerably over a thousand people, according to Mr. Kerr's estimate, and the vast majority of these have been on the land for only a few months. Many of the settlers are well supplied with money and implements, but some of the poorest of the newcomers have made good according to Mr. Kerr. "In fact," said he this morning, "the settlers who have to get busy in order to pay their way, are much more eager than the others to get their homesteads broken. Two old country settlers, a Scotsman and an Irishman, in partnership, who settled in township 56 this spring with but \$200 apiece in cash, have each six acres broken today. Temporary buildings erected, and they were able to entertain our party of six in comfort on our last visit to the Prairie."

## RUTHENIANS MAKE EXCELLENT CITIZENS

ARE ESPECIALLY GOOD HOG RAISERS AND ARE RAPIDLY BECOMING PROSPEROUS

The Ruthenians who have settled along the line of the C. N. R. between Fort Saskatchewan and Vegreville, and in fact the Ruthenians of all the northern Alberta settlements, are making remarkable progress, according to Livestock Commissioner Stevens. They are becoming first-rate farmers, acquiring a good class of horses and stock and their homes are the homes of prosperous looking people.

"Ruthenians have become the backbone of the whole of that eastern country," Mr. Stevens declared. "They are raising a really improved class of hogs, breeding better and feeding better. I saw a number of these settlers select 30 miles during the night, arriving at the station at 8 o'clock in the morning, in order to market their hogs."

## Did You Ever Make Any Money?

Well here is a chance for you to make some money in a good safe investment. If you have been in the West long, you know that money can be made in real estate if the property is situated right, and you can get in on the first price.

Now, we are offering to you

## G.T.P. ADDITION

which satisfies both of these conditions. It is situated near the site of the Grand Trunk shops which in a very short time will be the industrial center of Edmonton and have one of the largest pay rolls in the West. Anyone can handle a lot in this property as the prices are from

**\$90 to \$200**

and the terms are \$10 cash and the balance \$5 per month.

Are you going to pass by a proposition of this kind and be classed with those people who have never made any money in Edmonton or are you going to buy a lot in G.T.P. Addition and in a year's time be able to say that you were one of the fortunate ones who were able to grasp this opportunity.
